GOING FOR GOLD PROJECT

The Going for Gold project is a series of squash festivals which will be run around clubs in Scotland which currently have no active junior programme. The Going for Gold project will culminate in one large Going for Gold festival during the 2019 Springfield Scottish Squash Open which aims to encourage thousands of children in Scotland to take up the sport of squash. It will also give children the opportunity to play on an all glass squash court and meet professional squash players to inspire the players of the future.
