## **HOST VENUE APPLICATION**

Scottish Squash will endeavour to rotate events around the country. By doing so Scottish Squash hopes to:

- Promote the sport regionally and nationally.
- To distribute all benefits of events around the country and to encourage investment in clubs.
- Provide variety of competitions on offer to our member clubs.
- Diminish the effect of distance for some participants attending competitions.

Please note that decisions will not be rotated based on the Scottish Squash regional boundaries. It is the aim to rotate major events around the country to clubs which satisfy the criteria listed for each particular event, although Scottish Squash reserves the right to alter this as it may be necessary on an individual tournament basis.

Consideration will be given to joint hosting of events, if distances between clubs are deemed to be acceptable to the players and Scottish Squash.

In the case of certain major events the proximity of available accommodation will be taken into account.

In all cases the quality of the available courts and other club facilities such as viewing will be a determining factor.

The decision on the awarding of events will be taken by the Tournament Sub Committee, or in its absence the Board, and will be based on the merits of each application in relation to the criteria above and the cost of hosting the event. An appeals process for clubs will also be available following the decisions from the Tournament Sub Committee. A separate appeals panel will review all appeals in regard to host venue applications.

The following criteria detail the minimum requirements for clubs to host specific platinum events. Applications are welcomed from all clubs if they feel they have a case to run events using their facilities even if these differ from the minimum requirements, however, the Tournament Sub Committee will normally reach their decision taking in to account the required criteria.

Joint applications from 2 or more clubs are fully welcomed.
